

ProScape® fertilizers and fertilizer combination products offer the Turf Manager a complete set of tools. Choose from a wide selection of fertilizer products, along with easily and accurately applied fertilizer combination weed and insect controls. In the ProScape® brand of products you'll find exclusive LebanonTurf technologies such as Meth-Ex® 40, a high efficiency methylene urea and MESA®, a specially formulated nitrogen known for delivering brilliant color response. GREENSMART Enhanced Efficiency Fertilizer™ has been shown to significantly enhance nutrient availability, and increase plant uptake resulting in consistent and measurable savings in fertilizer costs.
