Woodace® for Landscape Ornamentals

Product Number	Analysis	Description	SGN	Pallet	Package	Source
Shrub Bed Weed Control						
24-56320	Woodace® Preen® Plus	Woodace® Preen® Plus combines the power of two active ingredients for unsurpassed control of both grassy and broadleaf weeds. One application can prevent over 150 weeds from invading shrub beds and other landscape areas for up to six months.	--	30	20 Lb	--
Soluble and Granular Fertilizers						
21-56325	Woodace® 20-20-20 Spray Grow Soluble	Woodace® 20-20-20 Soluble is a versatile, easy to use, water-soluble fertilizer with micronutrients. The soluble formula can be used on most landscape plants including flowers, trees, shrubs, ground covers and lawns. Woodace® 20-20-20 Soluble readily dissolves in water and comes conveniently packaged in a reclosable bucket.	--	20	20 Lb	--
22-56323	Woodace® 12-3-6 ACRE 56% CRN	Woodace® A.C.R.E. 12-3-6 is specially formulated for Azaleas, Conifers, Rhododendrons, and Evergreens that thrive in acidic soil. Woodace® ACRE is also ideal for fertilizing plants where micronutrient availability is limited by high soil pH. Woodace® A.C.R.E. will aid in maintaining a slightly acid soil pH which is ideal for most evergreens and foundation plants.	200	45	50 Lb	MOP
21-56324	Woodace® 14-14-14 Flowering 60% CRN	Woodace® Flowering 14-14-14 is a premium homogeneous fertilizer for maintaining ornamental landscape plants such as foundation plantings, shrubs, ground covers, trees, and flowers. Woodace® Flowering 14-14-14 features a 1:1:1 nutrient ratio, ideal for establishment, flowering, and managed vegetative growth. It contains the secondary nutrients Magnesium and Sulfur, as well as the micronutrients Iron and Manganese, for increased vigor and exceptional foliage. It contains 60% of the total nitrogen in a controlled release form for long term feeding.	190	60	40 Lb	SOP
22-56313	Woodace® 14-4-6 Tablets 57% CRN	Woodace® tablets fertilize new plantings for up to eighteen months. Formulated with slow release nitrogen, each 17 gram tablet simulates a liquid injection site with the advantage of less labor and longer feeding. Unlike fertilizers that are blended into the backfill, tablets can provide essential nitrogen without burning delicate root hairs.	--	20	22.5 Lb Bk	SOP
22-56322	Woodace® 18-5-10 Longterm 84% CRN	Woodace® 18-5-10 features slow release nitrogen and Expo® controlled release potassium. Long preferred by professional growers for long-lasting feeding with 75% controlled release nitrogen, 18-5-10 is the ideal labor saving single application topdress for feeding trees, shrubs, groundcovers, and other landscape ornamentals.	240	45	50 Lb	SOP
